

## **MIDWEST OPTICAL - DB850**

MID PT

F/DB850-C

Bandpassfilter - standard, 850nm, for C-Mount

- Dual IR-band
- Work area 385-650 nm and 820-880 nm
- Filter Visible + 850nm NIR

## PRODUCT DESCRIPTION

Dual bandpass filters are ideal for color camera applications that need to be in operation 24 hours a day and use IR lighting at night. These filters enhance the camera's ability to capture clear images regardless of lighting conditions.

- · Ideal for color camera day / night applications
- · Visible light and a narrow IR band
- · Block interfering IR wavelength
- · Provides clear images in the dark when used with appropriate IR illumination

## **SPECIFICATIONS**

Filter thread (thread diameter x pitch)

C-Mount
