PRODUCT DESCRIPTION

SLIM is an Italian branded lamp manufacturer offering a wide range of panel mounted branded lamps for 6-22 mm hole diameter. Alternatively, rectangular bore versions are also available.
Their marker lights are available with connectors or pre-wired, and with different coloured lenses and light sources.
The marker lights are available in plastic and metal body, with a wide operating temperature range and up to IP68 rating.
For more information about the products, visit the manufacturer's website via the link below or contact us directly.
