KEY EXCHANGE BOX, X SERIES

X-FSB-H-1/2
X - Key exchange box, 1/2 keys

- Designed to enable a sequential release of keys by insertion of an initial key
- Extremely durable
- Unlimited amount of locks

PRODUCT DESCRIPTION

A typical application of the X key exchange box is machine guarding with one or more access points to the hazardous area. The key exchange box is used as a part of a safety system, which ensures a machine is shut down, before access to the hazardous area is allowed.

- Designed to enable a sequential release of keys by insertion of an initial key
- The need for this type of product usually arises when there are multiple points of entry
- Designed to be the link between the isolation units and access interlocks
- Available in a number of configurations and number of locks
- Supplied in an enclosure suitable for surface mounting
- Available with FS or Q type lock portions
