MEZIO-V20/V20-EP

NACC-MEZIO-V20
Ignition control, 16 memory slots + 1x mini-PCIe

- Ignition control for in-vehicle applications
- Designed to add I/O functions to an embedded system
- Connection through system MezIO -expansion slot

PRODUCT DESCRIPTION

Key features:

- Ignition power control with 16 predefined on/ off delay modes
- Ultra-low 12 mA ignition-off standby power
- Advanced of ignition control features
- Low-battery protection
- Guarded power-on/ power-off delay duration
- System hard-off
- BIOS POST check
- Supports 12V DC (small vehicle) and 24V DC (bus/ truck) vehicles

SPECIFICATIONS

Supply Voltage DC Max	24 V DC
Supply Voltage DC Min	12 V DC
