## PRODUCT DESCRIPTION

1102001 22001411 11011		
Screw bracket for series Silverline		
he screw brackets are designed for i	use where there is no DIN rail or when a rai	il is not sufficiently stable.
		•
crew bracket for series Dimension	n	

The screw brackets are designed for use where there is no DIN rail or when a rail is not sufficiently stable. Remove the existing brackets on the unit and then mount the screw brackets in the same screw holes.

Side-mount bracket for series Dimension

The side bracket enables mounting of the Dimension unit in shallow enclosures. The bracket in its basic configuration is for screw assembly. The DIN rail bracket that is removed from the unit can be mounted on the side bracket for attachment to the DIN rail.
