E3510A

Warning light orange, 10-30V

- Measures only 83.8 x 27.9 x 10.2mm
- Comprised of 24 1-watt high-intensity LEDs
- 16 flash patterns
- Available in amber, blue, clear and red

PRODUCT DESCRIPTION

The 3510 surface mount LED warning light is designed to offer maximum performance with minimum size. This slimline LED measures only 83.8 x 27.9mm and only 10.2mm deep, comprised of 24 1-watt high-intensity LEDs in an ultra compact housing. Its small footprint allows for mounting in almost any location on a vehicle body. It is synchronisable with additional units and any Hide-A-LED model. The 3510 includes 16 flash patterns and is available in amber, blue, clear and red (colourless when not illuminated). Additional benefits of LED technology include high-intensity light output, low current draw and long maintenance-free service life.

SPECIFICATIONS

Approvals	SAE Class I
Color Lens	Clear
Color light	Orange
EMC	R10
Height	37 mm
IP Class	IP67
Length	93 mm
Light type	LED
Number of light pattern	16
Power consumption	0.75 A
R65	No
Width	12 mm
Voltage	12-24 V
