

## MAGNETIC SENSORS WITH HALL TECHNOLOGY

637.1663.070

- Transistor output
- Long detecting distance
- Dirt, dust or moisture does not affect the operation
- Detection also through non-magnetic material
- IP65 rated

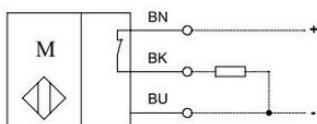

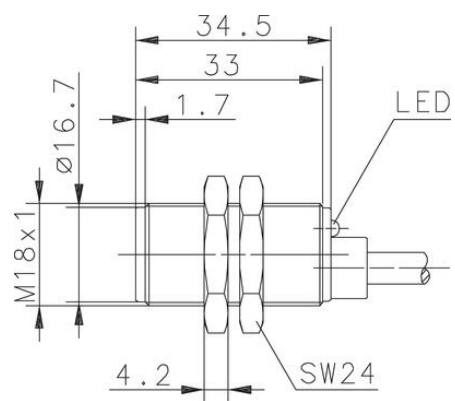

### PRODUCT DESCRIPTION

### SPECIFICATIONS

|                        |         |
|------------------------|---------|
| Sensing                | 17 mm   |
| Reference Magnet       | T62N/S  |
| Output                 | NPN NO  |
| Material of body       | Plastic |
| Cable length           | 2000 mm |
| Voltage DC min         | 10 V    |
| Voltage DC max         | 30 V    |
| Load Max               | 400 mA  |
| IP Class               | IP67    |
| Temperature range from | -20 °C  |
| Temperature range to   | 70 °C   |
| LED                    | Yes     |
