PTC HEATERS

HR-SERIES
Air heaters -

- Extremely safe, limited maximum temperature
- Light construction - optimal heat transfer
- Energy efficient
- Multitude of customization options

PRODUCT DESCRIPTION

Our supplier DBK offers a large selection of solutions specially designed to provide optimal climate management in enclosures. DBK has a n extensive history in heater systems utilizing PPTC-technology and continues to further develop their products.

Company's product range covers all types of heaters needed in different enclosures and electrical cabinets. The heaters feature self-regulating temperature control which guarantees optimal operation without excess power consumption or risk of overheating. DBK also has products suitable for heating different surfaces.

SPECIFICATIONS

Approvals	CE, RU, RoHS II, VDE
Operating voltage	110 V, 230 V
Power Max	2400 W
