### PRODUCT DESCRIPTION

The Q series is a series of warning lights with modern LED technology or xenonstrobe, which has good signal strength and compact design. The unique lens gives a clear and bright light with good spread. LED technology offers long life, low power consumption and better durability in relation to vibrations. And with IP66, these warning lights are suitable for industrial, fire, marine use, etc. The warning lights can be combined with other units of series A and Q.
