

NHU9 TACHO ENCODER FOR DEMANDING ENVIRONMENTS

NHU9
Tacho encoder

- Diameter 90mm, bore 30mm
- Analogue and incremental signal in accordance with rotational speed
- Equipped with cable, connector or connection box
- Mechanical overspeed switch available

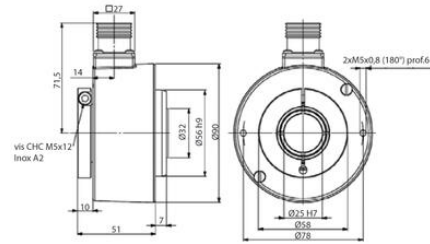

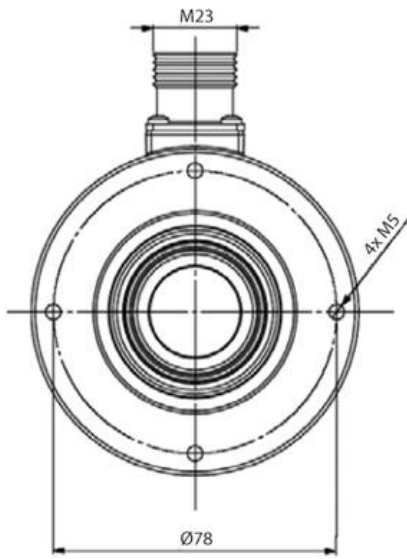

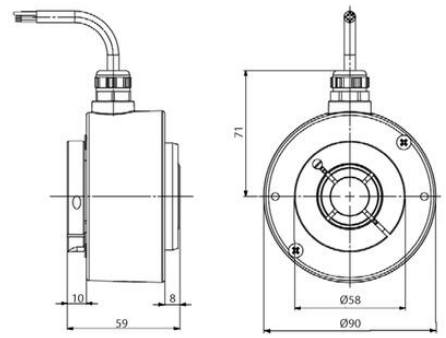

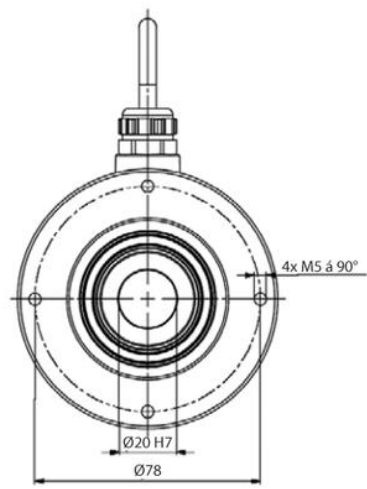

PRODUCT DESCRIPTION

SPECIFICATIONS

Sensor type	Absolute
Housing diameter	90 mm
Shaft Diameter	30 mm
Pulse Max	10000
Connection Thread	Cable, M23 contact
IP Class	IP65
Speed max.	6000 rpm
Supply Voltage DC Min	15 V DC
Supply Voltage DC Max	30 V DC
Temperature range from	-20 °C
Temperature range to	80 °C
Output	0-10V, 4-20 mA
