

INTERNAL DRESS PACK FOR COBOT

KUKA392057

Cable set INT 082ST1300 CTR GIG II

- For LBR iisy-series cobots
- Several different variants
- Different lengths

PRODUCT DESCRIPTION

In addition to the standard cable, the cable set contains an integrated energy supply system, ES.

The ES consists of the following components:

Control cable for transmission of serial data and signals

GigE camera cable.

ES is routed from the back of the base frame to the in-line wrist.

The cable assembly is used together with the KR C5 micro-robot controller.
