

TEST-DISCONNECT TERMINALS PTK

1131.2

PTK 10/LT/STB, Test-disconnect terminal with sockets

- Multi-foot TS35/TS32
- Touch-safe to VBG 4
- Dual function, disconnect & test

PRODUCT DESCRIPTION

Test-disconnect terminals are mostly used in the sectors of electricity generation and supply. They are tailored to the variety of switching demands for current-converter secondary circuits that predominate in these sectors. Current transformers must always have a secondary circuit when electricity meters and measuring instruments are being replaced, or when making comparative measurements.

CONTA-CLIP test-disconnect terminals are available in the following three basic versions, each with or without a pre-assembled socket plug.

All versions provide touch-safe protection according to DGUV-3.

A captive, screw-on sliding partition is used to separate the current and voltage paths.

The switch position is always easy to detect since the disconnect screw has a yellow insulating sleeve.

In all versions, the STB 14/4 socket plugs can be used for a test pick-off for measuring values using the PS 4 test plug or the conventional (4 mm) insulated test plugs.

The VH 19 connecting sleeves and the BS 25 screws or STB 14/4 socket plugs are required for fastening the QVS cross-switches above the terminal block. The cross-switches are available from 2 to 4 poles.

The QSB internal cross-switches are positioned within the terminal block and make contact over the sliding contact on the LT- or QT-terminals. The cross-switches are available from 2 to 4 poles.

The BS 25 mounting screws are used together with the VH 19 connecting sleeves to establish contact with the QVS cross-switches.

SPECIFICATIONS

Additional information	with sockets
Approvals	CSA, CSA US
Color	Beige
Connections	2
Contamination degree	3
Country of origin	DE
Cross section single wire from	0.2 mm ²

Cross section single wire to	10 mm ²
Cross section stranded wire from	0.2 mm ²
Cross section stranded wire to	10 mm ²
Cross section stranded with ferrule from	0.2 mm ²
Cross section stranded with ferrule to	10 mm ²
Cross-Section	10 mm ²
CSA test standard	C22.2 No 158
CSAus test standard	UL 1059
Flamklass	UL94-V2
Height TS 32	51.5 mm
Height TS 35/7.5	47 mm
Insulation Material	Polyamide 6.6
Length	72 mm
Mounting	TS 35/7,5 and TS 32
Number of levels	1
Number of test pick off options	2
Operating temperature from	-40 °C
Operating temperature to	105 °C
Overvoltage category	III
Pack Size	50
Plug gauge acc. EN 60 947-1	A5
Rated Current CSA	45 A
Rated current CSAus	45 A
Rated Current IEC	10 A
Rated impulse voltage	4 kV
Rated wire cross section from (AWG)	8
Rated wire cross section to (AWG)	22
Rated voltage CSAus	600 V
Rated Voltage IEC	400 V
Screw size	M 4
Screw type	Slotted
Stripping Length	12 mm
Tariff code	85369010
Torque max	2

Torque Min	1.2
Weight	28.9 g
Width	8 mm
Voltage CSA	600 V
