- Robust stainless steel housing (AISI316L), good heat dissipation, IP69K V4A
- Wide selection of accessories available for mounting and maintenance

PRODUCT DESCRIPTION

Enclosure Configurator

The Dolphin is a high grade stainless steel enclosure that offers IP69K protection for cameras up to 40 x 40mm cross-section, especially for hygienically demanding areas such as in the pharmaceutical and food industry. Thanks to the patented Quick-Lock / Heat-Guide clamping system, there is an excellent heat dissipation. The electro-polished V4A stainless steel enclosures avoid corners and edges where dirt or germs could settle. All potential gaps are sealed with FDA approved seal. The new, hygienic mounting system offers a flexible alignment and positioning of the camera in these highly sensitive areas.

autoVimation offers a wide selection of enclosures to suit even the most specific requirements. To find a suitable enclosure please see the Enclosure Configurator (link above) or contact OEM Finland sales team for additional info!

Dolphin Order Numbers:

ID	Camera Height	Camera Length	Exit	Cable Gland	Length
