PNEUMATIC SHUTTERS

50.200.010
Pneumatic shutter for Salamander and Gecko series

- Seals the front window when the camera is not operational
- Can be used in combination with Wind Curtain
- Compact size
- For Salamander, Gecko and Orca enclosures

PRODUCT DESCRIPTION

Pneumatic shutter seals the front window hermetically during image acquisition breaks. Application examples are positioning checks prior to milling in a machining center, where coolant and chips would contaminate or even scratch the window.
