

## LOCK 250

TBL25  
Tosibox Lock 250

- 30 Mb/s VPN throughput
- WAN port, WLAN port
- Supports 3G/4G modem
- Integrated I/O
- Up to 20 concurrent connections

### PRODUCT DESCRIPTION

New TOSIBOX® Lock 250 is an efficient and robust industrial router with an integrated WiFi. It serves as an endpoint for secure remote connections in operational (OT) networks. Devices connected to the Lock are securely accessed over the Internet and most LAN and WAN networks through an encrypted VPN connection.

NAT and firewall friendly, the Lock's patented Plug & GOTM connection method takes you out of the box and into use in less than 5 minutes, without the need for software installations, network configurations or special IT skills.

TOSIBOX® solution creates a direct point-to-point VPN tunnel between you and your device. The solution consists of modular components that offer unlimited expandability and flexibility. All components are compatible with each other as well as internet connection, operator, and device agnostic. The solution works both in internal and external networks, and you can connect both modern IoT devices and legacy systems.

### SPECIFICATIONS

<b>Height</b>	127 mm
<b>LAN port</b>	3 x 10/100 Mbit/s
<b>Length</b>	110 mm
<b>Mounting</b>	TS35
<b>Power Consumption max</b>	10 W
<b>Supply voltage</b>	12-48 V DC
<b>WAN port</b>	10/100 Mbit/s
<b>Width</b>	58 mm
<b>WLAN</b>	Yes
