

LIGHT BULBS

893012313

LED BLINKG RED 230VAC BA15D

- Incandescent bulbs
- Halogen bulbs
- LED Flashing and Steady bulbs
- Bulb fitting tools

PRODUCT DESCRIPTION

Incandescent bulbs

Most simple and cost-effective light source, Available in a wide range of shapes, voltages and outputs.

Halogen bulb

Higher light output than incandescent bulbs: up to 25 lm/W. Longer service life (about double that of incandescent bulbs). Little blackening of bulb - same luminous flux throughout the entire service life

LED bulb

High light output - high-power LEDs: up to 200 lm/W, standard LEDs: up to 50 lm/W. LED brightness is reduced only very slightly with coloured lenses as a result of narrow spectrum. Low energy consumption.

Very long service life - up to 100,000 hours. Full resistance to vibrations, impact, shocks, etc.

SPECIFICATIONS

Color Lens	Transparent
IP Class	IP40
Lamp Socket	BA15d
Light source	LED
Light type	Red LED
Mounting	BA15d
Supply Voltage	230 V
Weight	15 g
