

## DATALOGIC - CONTROL UNIT SG-BWS-T4-MT

SG-BWS-T4-MT SG-BWS-T4-MT Safety Control Un

- Up to four pairs of safe photocells and two pairs of light beam protectors
- Muting
- 2 NO secure outputs
- Removable coded terminals

## PRODUCT DESCRIPTION

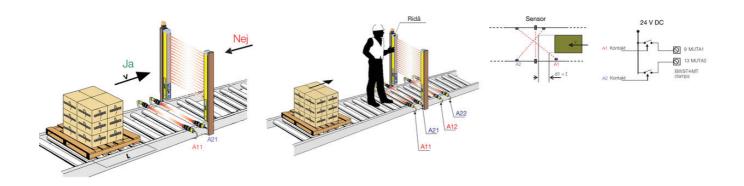

Control unit that up to four pairs of safety photocells can be connected to, as well as two external light beam protectors or other safety components with OSSD outputs.

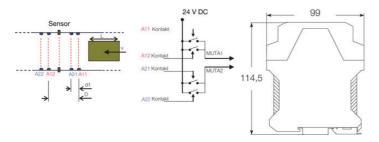

There are two separate muting inputs which permit two different zones to be muted independently. An inbuilt override function allows the movement of goods that have fastened in the protective field. The control unit has two NO secure outputs. There is a 7 segment LED display for status and diagnostics on the front display.

## **SPECIFICATIONS**

| Approvals                            | CE, cULus, TÜV     |
