

MULTI MOUNT LED 3750

E3750A

Warning light round, orange, 10-30V R65

- Specifically designed for compact use
- Multiple mounting options
- 4 LEDs provide excellent warning
- Various flash patterns, synchronisation capability

PRODUCT DESCRIPTION

The 3750 series is a high intensity R65 approved directional LED warning light specifically designed for compact use. It can also be surface, collar and L bracket mounted to the vehicle exterior using the included mounting bezel. Featuring four LEDs that provide exceptional warning. A sealed in-line driver module eliminates the need for a remote power supply. This product series also features multiple flash patterns and synchronisation capability.
