

ARION PROSAFE T10 PANEL

10020121

Panel 1230x200 mm, T10

- Extremely strong and solid design
- System heights 1410, 1700, 2080, 2700 mm
- Easy to install

**PRODUCT DESCRIPTION**

One of the strongest systems on the market. The panel is made of a tube frame consisting of square profile tubes with a dimension of 30×30 mm. A Cutting Kit is available as standard accessory, making it easy to adjust both width and height when assembling. There are also standard accessories for the system that make it easy to build with our other systems.

With its extremely strong and solid design, ProSafe is developed for tough and demanding industrial environments. The panels offer very high stability. Wire mesh: 100×20 mm, wire diameter 3 mm (on request also 30×30 / 40×40 mm)
