PRODUCT DESCRIPTION

The Mechan Magnasafe switches are magnetically operated safety switches. Easy to install and maintain, the Magnasafe switches are fully encapsulated non-contact switches ideal for long term for use in harsh / wet environments. Available in a wide variety of sizes and contact configurations, MAGNASAFE switches are suitable for machine guarding applications where guard locking is not required.

Tolerant to misalignment, the MAGNASAFE range of non-contact safety switches are suitable for use in wash-down areas making them ideal for use in the food processing / filling and packing industries as well as many other non-locking machine guard applications.

Features:

- Non-contact operation
- IP67 fully sealed, washdown
- ABS or stainless steel
- Max 2A switching capability
- Large range of sizes / fitting
- Quick disconnect options
